

Cupertino Community Advisory Committee (CAC)

Notes from May 10, 2017

The CAC began their problem solving process by generating as many ideas as possible to arrive at the issues brought on by declining enrollment. Each member first generated his or her own individual ideas in writing. The various ideas were then placed in their corresponding affinity pattern.

Members were then given the opportunity to ask clarifying questions on each of the ideas presented. Following that process, members were able to advocate for the ideas that made the most sense to them.

At the May 24 meeting, the CAC will continue their prioritizing process.

**NEXT MEETING: May 24 at the Cupertino District Office Boardroom,
6:00-8:00 PM (possibly 8:30 PM)**
